Collections	360 collections
Partners	57 academic libraries, public libraries, museums, historical societies, cities, counties, and state agencies from Utah, Nevada, Idaho, and Hawaii
Infrastructure	The central search portal in Ex Libris Primo accesses a metadata index that is updated weekly with harvests from the distributed network of digital repositories. These repositories use different digital assets management systems, including CONTENTdm, BE Press, ArchivalWare, Equella, and several in-house systems. The Open Archives Initiative protocols, along with adoption of a common metadata standard, the MWDL Dublin Core Application Profile, assure interoperability.
